

## 2015 Langfritz Seed - Aerial Fungicide/Insecticide programs

**Corn** - total per acre cost includes ½ pint Protix Aerial (adjuvant) and airplane cost

Option #1 – Preventative fungicide (Dupont)

6 oz Approach fungicide + 3.2 oz Lamcap insecticide \$27.95/acre

Option #2 – Preventative + Curative fungicide (Dupont)

6.8 oz Approach Prima fungicide + 3.2 oz Lamcap insecticide \$32.11/acre

Option #3 – Preventative + Curative fungicide (BASF)

10 oz Headline AMP + 3.8 oz Fastac insecticide \$35.62/acre

- Other fungicides are available such as Stratego YLD, Quilt Excel, or Fortix as well as a big variety of insecticides, these are just a few of the most common packages used
- Rebates have been figured in to the overall cost per acre
- Lamcap (generic Warrior) – old Warrior ZT formulation
- Helicopter available upon request, add \$1.50/acre to the cost

**Soybeans** - total per acre cost includes ½ pint Protix Aerial and airplane cost

Option #1 – one month Aphid guarantee with Asana XL

6 oz Approach fungicide + 9.6 oz Asana insecticide \$30.78/acre

Option #2 – BASF lead soybean program

4 oz Priaxor + 3.8 oz Fastac insecticide \$32.65/acre

Option #3 – Generic insecticide, less residual

6 oz Approach fungicide + 3.2 oz Lamcap insecticide \$27.95/acre

- Again, we carry a large line-up of insecticides and fungicides so please call if you are looking for a specific product.
- Bayer has a very aggressive fungicide/insecticide offer as well with Stratego YLD that can be very advantageous if you used other Bayer chemistry earlier this season.
