Group 14, 15 Herbicide

## For superior control of grasses and small-seeded broadleaf weeds in soybeans.

- Excellent foundational broadleaf and grass herbicide for unmatched residual control of small-seeded broadleaf weeds and grasses.
- For use in LibertyLink®, Roundup Ready® and Roundup® Ready 2 Xtend trait systems, as well as conventional soybeans.
- Controls waterhemp, Palmer amaranth, nightshade, lambsquarters, kochia, morningglories and smartweed.
- Provides excellent residual control of grasses, up to four weeks longer than competitors, to allow for reduced postemerge trips in season.
- For resistant weed populations, use higher recommended rate for longer residual control.
- For no-till: Add Aim® EC herbicide 0.75-1 oz. + 2,4-D 1 pt./A + COC 1% or appropriate burndown program.
