

Weeds? Forget About It.™

| Soybeans |

Residual Control of Waterhemp and Giant ragweed

Weed resistance is a growing problem...especially with waterhemp, giant ragweed and marestail. Regardless of where you farm and what weed control product you use, a single herbicide mode of action is simply no longer adequate to protect your yield and long-term profitability. Gangster® Herbicide provides excellent control of a broad spectrum of weeds, including waterhemp and giant ragweed.

Gangster offers soybean growers:

- Two modes of action – to fight the toughest weeds, including waterhemp, giant ragweed and marestail
- The proven power of Valor® Herbicide – the leading pre herbicide on the market
- Rotation to corn the next year in all geographies
- Increased soybean yield by controlling weeds before they steal moisture and nutrients from the crop

Gangster – Residual Control of Tough Weeds

Untreated

Gangster 2.4 oz/A

Weeds? Forget About It.™

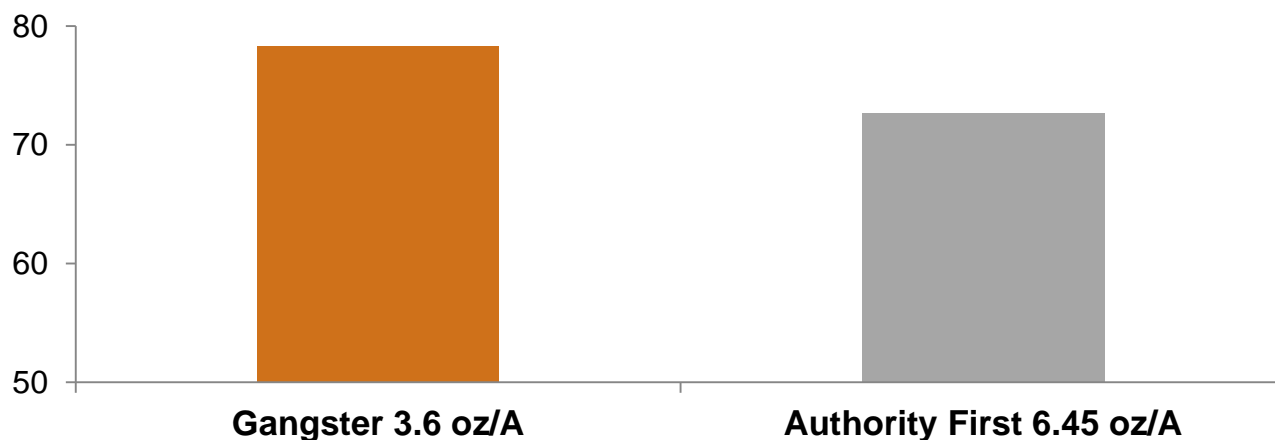

| Soybeans |

How To Use

Rate	2.4 – 3.6 oz/A; Use higher rate for longer residual on glyphosate-resistant weeds
Timing	Preplant or Preemerge
Burndown Partner	Roundup WeatherMAX® or Roundup PowerMAX® + 2,4-D
pH Restrictions	None
Roundup Ready PLUS®	<i>Gangster</i> qualifies for Roundup Ready PLUS soybean incentives. See www.RoundupReadyPLUS.com for full details.

Gangster Residual Weed Control: Giant Ragweed – 56 Days After Treatment

% Control

Average of five university trials
