

Roundup WeatherMAX[®] Herbicide

Confidence to the MAX

MAXIMUM PERFORMANCE

- Transorb[®] II technology delivers a lethal dose of weed-killing power within minutes for unsurpassed weed control in tough conditions, on tough weeds
- 22% higher surfactant loading than the competition
- Improved tank-mix compatibility

MAXIMUM SUPPORT

The full risk-sharing benefits of:

- 30-Minute Rainfast Warranty
- Tough Weeds, Tough Conditions Warranty
- Enhanced Volunteer Corn Cost Share Incentive
- Professional, local service support

MAXIMUM CROP SAFETY

- Proven crop safety in more than 3,000 side-by-side field research plots over a two-year period, to help maximize yield potential

High surfactant load of Roundup WeatherMAX Herbicide.

Monsanto internal test highlighting the surfactant loading of glyphosate competitors versus Roundup WeatherMAX herbicide.

Roundup PowerMAX[®] Herbicide

Powerful, Consistent, Proven Control of Tough-To-Manage Weeds

POWERFUL WEED CONTROL

The latest formulation offers the powerful weed control you would expect from the Roundup[®] Agricultural Herbicide brand family.

CONSISTENT WEED CONTROL

Offers enhanced consistency of control weed to weed and field to field, even hard-to-control weeds such as:

- Velvetleaf
- Purslane
- Morningglory
- Lambsquarters
- Canada thistle

PROVEN PERFORMANCE

Has consistently outperformed imitator herbicide products in greenhouse and field trials

Roundup PowerMAX[®]

Imitator A

Imitator B

Imitator C

SOURCE: Efficacy tests were conducted on velvetleaf at the labeled rate of 0.75 lb. a.e./acre, which is equivalent to 22 oz./acre of Roundup PowerMAX[®] and 32 oz./acre of the other products or equivalent rate to deliver 0.75 lb. a.e./acre. Images from Monsanto Greenhouse Test 2008A08028 taken at 11 days after treatment.

Roundup Technology[®] includes Monsanto's glyphosate-based herbicide technologies. **Individual results may vary**, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Tank mixtures: The applicable labeling for each product must be in the possession of the user at the time of application. Follow applicable use instructions, including application rates, precautions and restrictions of each product used in the tank mixture. Monsanto has not tested all tank mix product formulations for compatibility or performance other than specifically listed by brand name. Always predetermine the compatibility of tank mixtures by mixing small proportional quantities in advance.
