

## 2014 Roundup Ready PLUS® for soybeans

### Available for fall, spring or post applications!

- Proactive and economical approach to manage tough-to-control and glyphosate-resistant weeds
- Help maximize yield potential through season-long control
- Opportunity to earn cash-back incentives

Weed resistance is a growing challenge. Regardless of where you farm and what weed control methods you use, a single herbicide mode of action is simply no longer adequate to protect your yield and long-term profitability.

Roundup Ready PLUS is a platform of recommendations and incentives to manage tough-to-control and glyphosate-resistant weeds. Products endorsed in Roundup Ready PLUS have been proven to perform as part of the Roundup Ready® system, and growers are rewarded for using them.

You'll receive cash-back incentives per acre when you buy an eligible herbicide for use in Genuity® Roundup Ready 2 Yield® Soybeans or Roundup Ready Soybeans.

Eligible herbicides along with per acre use rates and reward incentives are below:
